Obama to Use EPA to Declare CO2 a Dangerous Pollutant

Kurt Nimmo

Infowars

December 7, 2009

Text size

Obama and crew will not wait for the outcome of Copenhagen or the passage of the Waxman-Markey climate bill, predicted for 2010 at the earliest. Obama will declare carbon dioxide a dangerous pollutant this week.

The Environmental Protection Agency has declared carbon dioxide dangerous and this will probably result in the government requiring businesses that emit carbon dioxide and five other "greenhouse gases" to make costly changes in machinery to reduce emissions. Congress need not be consulted and no law need be enacted.

Obama will trek to Copenhagen on December 18 and attempt to convince the one-worlders and their cult of green that he is serious about the climate change agenda.

An EPA "endangerment finding" would allow the federal agency to use the federal Clean Air Act to regulate carbon-dioxide emissions

The EPA ruling and enforcement "could result in a top-down command-and-control regime that will choke off growth by adding new mandates to virtually every major construction and renovation project," U.S. Chamber of Commerce President Thomas Donohue said in a statement. "The devil will be in the details, and we look forward to working with the government to ensure we don't stifle our economic recovery."

"EPA action to regulate emissions could affect the U.S. economy more directly, and more quickly, than any global deal inked in the Danish capital, where no binding agreement is expected," opines [The Wall Street Journal](#).

Congressional Republicans are up in arms over the EPA "endangerment" ruling and have called on the agency to withdraw it. They have cited the fraudsters at the Climatic Research Unit of the U.K.'s University of East Anglia as an example that man-made climate change needs to be investigated and junk science cannot be allowed to stand without challenge.

ADVERTISEMENT

EPA action would signal to the United Nations, the Copenhagen globalists and their phalanx of NGOs that Obama is serious about eliminating carbon dioxide from the atmosphere and sending western civilization back to the Dark Ages. Obama will trek to the conference on December 18 and attempt to convince the one-worlders and their cult of green that he is serious about the climate change agenda.

The EPA decision to categorize carbon dioxide as a dangerous pollutant is junk science manifest, but then the idea is not to save the planet, but rather use this fake science to impose the globalist agenda on humanity — from a massive cap and trade derivatives scheme, to globalist taxation and finally a culling of the herd. It's no secret the major players behind one-world globalism are eugenicists.

"CO2 is not a pollutant. In simple terms, CO2 is plant food," notes [John R. Christy](#), professor of Atmospheric Sciences at the University of Alabama. "The green world we see around us would disappear if not for atmospheric CO2. These plants largely evolved at a time when the atmospheric

CO2 concentration was many times what it is today. Indeed, numerous studies indicate the present biosphere is being invigorated by the human-induced rise of CO2. In and of itself, therefore, the increasing concentration of CO2 does not pose a toxic risk to the planet."

In fact, as [S. Fred Singer](#), Professor Emeritus of Environmental Sciences at the University of Virginia has noted, an increase in CO2 would raise GNP and therefore average income. "It's axiomatic that bureaucracies always want to expand their scope of operations. This is especially true of EPA, which is primarily a regulatory agency," writes Singer.

The EPA is may soon be tasked with regulating life in the United States at the behest of a coterie of globalists who are keen to limit economic and industrial activity and check the growth of the herd which they despise and want to scale back to 500 million, as they have proudly announced on the Georgia Guidestones.

I'm going to get some under water training to be able to hold my breath for about 3 minutes at a time. This way I estimate that I will save the environment by reducing my carbon footprint derived from breathing to about 1/90 of what it is now.

i exhale carbon dioxide. Does that mean that I have to register with the government as being a polluting entity? Plants grow faster with more co2, they need less water and can stand higher temperatures. Any gardener knows this. Damn, people are ignorant.

Yes I often release methane because of a healthy, high-fiber diet.

I could very well be branded an "environmental hazard", (according to friends and associates who happen to be nearby), so I suppose my lifestyle of unburdening our medical system by eating healthy will be TAXED because I happen to emit natural gas.

Damned if you DO, damned if you DON'T.

Since most farts are simply air you've swallowed, not methane, there is actually less GHG in them than in air you've exhaled. So you should get a discount for them. Get a receipt.

Afraid, yes, but it's more than that. Each person has only one life, and it's precious to them. Everyone knows we're outgunned, out-moneyed, and running out of time. This plot has been going on since way before I knew about it and certainly longer than most others have known.

I don't think it can be stopped now. A scenario when it could have been stopped...

Joe Blow: "I think there's too many people on this planet."
John Doe: "You're right (pulls out gun & blows him away). Problem solved".

This is a satanic fire that has gotten out of control, and it has overrun the planet. I'm watering the area around my life to keep it fresh and green. Isn't that the most any of us can do?

Oh, and everyone go outside and breathe deep. Maybe our friends the trees can clean up the chemtrail fallout? Maybe?

Still trusting in God. He's bigger than the NWO and He WILL tromp their butts - in His time, not mine.

I can't believe how incredibly fast things are moving. The world just keeps getting closer and closer each day to the end and yet while all this takes place, the sheeple ignorantly believe the propaganda having been led to believe that they have the answers, while in actual fact the truth has been hidden from them.

As a Christian (and I am not ashamed of this and will gladly die for it, your criticisms mean nothing other than you are still not awake.) the Bible makes it very clear to me that this is all but the start of the end, Jesus describes all of this in Matthew very clearly, but says worse is to come. I do not believe that we can fight and win, but WE MUST FIGHT nonetheless. Tell everyone the truth about the new world order, but also tell them this:

The new world order is only one part of the problem, it stems from the main problem which is one of sin. We have all chosen to disobey God and break his commandments, put in place to prevent these things from happening. We will all one day be judged according to his law, and then we all stand just as condemned as those who we are fighting now. We are no better off whichever side we fight on. Without a saviour we have no chance to redeem ourselves, our supposed 'good works' are insulting to God, an attempt for us to 'bribe' the judge and escape punishment. And what horrible punishment it is, described as a lake of fire where all is nothing but pain, fear and suffering, continuing for eternity with no rest.

But there is good news in this somewhere. God has provided a way for us to be on the winning side, when he comes in glory and defeats evil once and for all we will not be found guilty. And it is because of this. Jesus Christ came into the world to save sinners. He took the punishment we rightly deserved and died in our place on the cross. Through his death and resurrection we have a chance to be reconciled with God and escape damnation.

All that is required of you is to repent of your sin, acknowledge areas of your life where you have disobeyed God, be it through lying, stealing, lustful thoughts, hating someone, or just not putting God first, and instead of relying on yourself and what you have done to save you, instead trust only in what Jesus Christ did on the cross. If you do that, then you are finally awake, and ready to fight on the winning side, because then if you should die in the battle against temporal tyranny, you are at least safe eternally.

Now go out there and tell everyone what I have just told you. It is the only way to win this battle, because we are not fighting the people in power, but we are fighting for the hearts, minds and souls of the people we know and love. Continue in the infowar my friends. I will be praying for you

There needs to be CHANGES made regarding the people's ability to RECALL AN ELECTED OFFICIAL WHO TURNS OUT TO BE CRIMINAL QUICKLY, such as in a matter of DAYS after a vote exactly opposite of which position the candidate supported in their campaign. It would be quite simple, since its easily proved now by video recordings which exact words the candidate used in order to seek election. For example it would be a cake walk to PROVE candidate OBONGO LIED THROUGH HIS TEETH on ALL HIS CAMPAIGN PROMISES.

It should take a simple petition from a number of citizens to apply for a hearing, put forth the evidence to a CITIZEN REVIEW BOARD, and if it is clear they LIED TO THE PEOPLE TO GAIN OFFICE they should be RECALLED IMMEDIATELY and FORCED TO PAY BACK ANY SALARY and BENEFITS THEY RECEIVED WHILE HOLDING THE OFFICE. That would HOLD THEIR MISERABLE FEET TO THE FIRE!

Ever see the movie "Animal Farm"?

In the beginning all the animals are equal. Then after they take over the farm the PIGS are the ones who get to live in the HOUSE, sleep in the BED, and lay around WHILE OTHERS DO ALL THE WORK.

GORE, OBAMA, GEITHNER, BERNANKE, KISSINGER, ROCKEFELLER, etc are the LAZY PIGS IN THE HOUSE.

THEY ride around in limousines WE pay for, live in energy-guzzling mansions in opulent style and WASTE RESOURCES all day while they expect US to bear the cost and work for THEM.

EXAMPLE. It was big news last year that all Palm Beach County, FL was on "water restriction" because of a supposed drought. Average people were fined if caught washing their cars or watering their lawn, yet ONE MANSION in Palm Beach proper was caught using A MILLION GALLONS PER MONTH; as much as 100 or more average residences use with NO restrictions. The FINAL IRONY was the owner of the mansion, who insisted he should be ALLOWED to use as much water as he wished because HE WAS PAYING FOR IT, was given a "pass" so he could KEEP ON wasting a million gallons of water per month, (33,000 gal per DAY) while ALL THE "COMMON PEOPLE" were kept on restriction.

THIS is the type HOGS who perpetrate "Global Warming" scams, "Federal Reserve Banks", "Real Estate Bubbles", "Peak Oil", "Homeland Security", and a hundred other CROOKED LYING SCHEMES on the public so they can SIT ON THEIR ELITE @SSES while WE do their work and PAY them to CHEAT US! It's high time for a PORK BARBECUE, wouldn't you say?

**Earth and it's inhabitants need more, not less, CO2.
 More CO2 means:**

- * **More Plant Growth**
- * **Plants need less water**
- * **More food per acre**
- * **More robust habitats and ecosystems**

CO2 is Earth's greatest airborne fertilizer. Without it – No Life On Earth!

Global warming or global governance?

- Interviews of climate scientists and biologists from numerous sources who explain, step by step, why Al Gore and the global warming alarmists are incorrect. In some cases, blatantly so. It also provides evidence that the global warming agenda is being funded with tens of billions of dollars as a mechanism to create global governance. Hear from congressmen, experts and even well-known news broadcasters how global governance puts global institutions that are not accountable to the American people in control of every aspect of our economy. The U.S. government is very close to making this a reality.-

Why do you seem surprised by this action.
Years ago when the Sierra Club and others started lawsuits against the Timber Industry, we had thousands of people at the State capitol in Protest to save our industry and jobs.Our protest did nothing to change the law.
Where I live there was once 30 timber and plywood mills.At this moment in my area ther are only three.
All the other states via the Eco clubs said we were clear cutting the forests,wich we were not.
So not our state judges but judges from other states detrimned our industries fait.
Back then on C-Span President of the Sierra Club stated you control the land and you control the people.
We all seen the writing on the wall then, and that was 15 yrs. ago.
We continue to protest but nothing is going to work unless we have 2 to 3 million people march to Washington D.C.

Satan counterfeits everything good. You ought to know that. But he twists even scripture inspired by God to his own ends. "Did God REALLY say that?" (to Eve in the garden). Lucifer/Satan/the devil ALWAYS questions God's word. And he encourages humans to do the same.

God loves the human race so much He sent His own SON to redeem it. I've found His word to be alive and relevant to my daily life, and studying it has not harmed me, but rather given me light for my path, peace and direction, and blessings galore. I've found it reliable for every issue I face. So satan, go back to dancing on your hot rock. I reject you in the name of JESUS CHRIST!

We are not living in a constitutional republic with a multi-party system, we are living in a corporatocracy. The trans-national bankers and corporations pull the strings. Obama is simply another puppet.

Bush started the Mid East war, Obama expanded it. Bush enstated dictatorial edicts, Obama continued them. Bush allowed the banksters to ream the American citizens, Obama gave them trillions of dollars. No difference.

The last President we had with any integrity was Kennedy (womanizer that he was). He took steps to eliminate the Federal Reserve Bank. Like Lincoln and congressman Louis McFadden who also went against the banksters, he was offed.

Of course they do. Matt, you fail to take into account the fluoridation in the water, the propaganda and lies taught in the public school systems, the focus on entertainment vs. knowledge and learning. The NWO COUNT on their plans to work, and they have for most sheeple. Look at most posting on here. They can't even spell or use good grammar. You go to a fast food place, and the people don't even know how to make change. This has been so subtle and going on so long that when it finally does hit us and we "wake up", it's like an atom bomb going off in our ear. This country, this world, has been on a slippery slope for many years. Sadly, that's how the devil works. For all his flaws, he does have patience that spans generations. He can afford to wait, and while his lap dogs like Rockefeller, that he has used and thrown away (burning in hell at this moment) pass off the scene, his lies keep the neophytes excited and stepping up to take their place.

To the NWO, we're cannon fodder. To satan, the NWO is cannon fodder. The difference is we know it, they don't.

Jesus said there would be FEW who would truly find the way to God. Most Christians only wear that "handle" to put some whitewashed "respectability" on lives that deep down aren't pleasing the Lord. Their token appearance on Sunday morning or at Christmas and Easter really means nothing unless it governs how they live.

But you guys knew that too!!!

[Reply](#)

Danny Cunningham Reply:

[December 8th, 2009 at 4:54 am](#)

@Government Troll, Your probably right about that: "Co2 is toxic at levels of 1%". In PPM terms (Parts per million) that would be 10,000PPM. The current levels are around 400ppm. Poly tunnel farmers often ramp up Co2 to up to 2,000PPM and work all day in the poly-tunnels and glass houses without any problem. This causes higher crop yields with less water consumption.

Even the nuttiest carbon cultists are talking about 1,000PPM. in the next 50 years (Ten times lower than your toxicity level). When you consider that man made Co2 cannot be any more than a single digit percentage in overall Co2 sources it become clear just how much of a non problem the planet is facing.

The real problems are deforestation,serious pollution, corporate farming and unsustainability. When you look at these things in terms of causation you will see that these all come from corporations, government debt to bankers and other monopoly interests. All of these have been imposed from the top down. Nobody asked for them they were subjected to them.

The serious real problems that we face are caused by the same people who are lying about global warming and saying that humans are the problem. It's just bait and switch. Human haters will always try to say that the humans are a problem. Every tyranny in history has expressed this in

one form or another.

The last great depopulation scheme occurred with a plague, following a credit crisis in 1340AD. The same arguments were made then. That the whole place would improve when 40% were dead with more opportunity for the remainder. Exactly the opposite happened and a new dark age that lasted about 300 years resulted. Meaningful depopulations cause cultural collapse and don't help anyone.

Sarcasm is the refuge of a weak mind used when the person's ability to logically debate fails.

Just in observation, I have noticed that you seem to rely upon sarcasm, as do men like Al Gore, and most of the Global Warming crowd.

If you find yourself having to rely upon insult, then you should note it is your failure and not your triumph which is demonstrated openly to all whom witness.

That is, unless your argument is based solely upon emotionally based personal opinion, and not empirical fact and reason.

Any and every bit of data that is factual will survive even close scrutiny, and every claim made by anyone should be judged based upon the weight of the facts. Science is based upon the principle of logical reason, and not emotion oriented presupposition.

Therefore do not claim the defense of science, or the bastion of logical reason, if you spout nothing but emotional rhetoric.

The inaction of the people to be fooled into the green technology movement means we have reached the end of the assembly line. Because of the economy we have become urban american indians. Foraging , trading and recycling goods. making things with our hands and loving it. This cannot be for its our

governments job to regurgitate its prechewed food into our helpless little lives. anyone who lives in a hut, grows and harvests their own food all while singing and dancing is considered poor... The film, made by British television producer Martin Durkin, showcases scientists, economists, politicians, writers, and others who are sceptical about the scientific theory of anthropogenic global warming. The programme's publicity materials assert that man-made global warming is "a lie" and "the biggest scam of modern times".

The fizz in beer and soft drinks is carbon dioxide (CO2)

The rise in bread is from carbon dioxide (CO2)

Since the EPA is going to classify CO2 as a dangerous pollutant they will have to eliminate these products (or explain why they are not).

I will not miss beer or sodas, but I will miss bread.

It is here that they promise the greenies that the EPA will regulate CO2 if Congress doesn't. They taught classes on civil disobedience and resisting arrest. They promise that BO and the EPA will transform our energy structure if Congress won't (and the American people don't want it). They talk about changing our entire financial and energy structure.

Please watch and pass along. It is really important. It was actually taped by the BBC's Enviro Man. He states several times how much the conference shocked him esp as it relates to America and the secret power grab within the WH and EPA (and he's a tree-hugger!).

The devil tells them that is to call back to Earth.

Putin seeks to turn to Russia and talks for 5 minutes.

When he finished the devil tells you that it costs a million dollars, so Putin will write a check.

Then the Queen Elizabeth called England and speaks for 30 minutes.

When she finished the devil tells you that the cost is \$ 6 million, so the Queen Elizabeth, wrote him a check.

Finally, George W. Bush begins his turn and talking for 4 hours.

When he finished the devil told her there would be no cost for the call and do not hesitate to call the U.S. at any time.

When Putin heard this, he goes ballistic and calls the devil because Bush has to call the U.S. free.

Hi to all infowarriors and warriorettes,

I have a very sad announcement for everyone.

The Revolution has been cancelled due to non interest.

Thank you for thinking about it though.

You did your best.

We all did.

American Pie by Don McLean:

A long, long time ago...
 I can still remember
 How that music used to make me smile.
 And I knew if I had my chance
 That I could make those people dance
 And, maybe, they'd be happy for a while.

But february made me shiver
 With every paper I'd deliver.
 Bad news on the doorstep;
 I couldn't take one more step.

I can't remember if I cried

When I read about his widowed bride,
But something touched me deep inside
The day the music died.

So bye-bye, miss american pie.
Drove my chevy to the levee,
But the levee was dry.
And them good old boys were drinkin' whiskey and rye
Singin', "this'll be the day that I die."
"this'll be the day that I die."

Did you write the book of love,
And do you have faith in God above,
If the Bible tells you so?
Do you believe in rock 'n roll,
Can music save your mortal soul,
And can you teach me how to dance real slow?

Well, I know that you're in love with him
'cause I saw you dancin' in the gym.
You both kicked off your shoes.
Man, I dig those rhythm and blues.

I was a lonely teenage broncin' buck
With a pink carnation and a pickup truck,
But I knew I was out of luck
The day the music died.

I started singin',
"bye-bye, miss american pie."
Drove my chevy to the levee,
But the levee was dry.
Them good old boys were drinkin' whiskey and rye
And singin', "this'll be the day that I die."
"this'll be the day that I die."

Now for ten years we've been on our own
And moss grows fat on a rollin' stone,
But that's not how it used to be.
When the jester sang for the king and queen,
In a coat he borrowed from James Dean
And a voice that came from you and me,

My great grandfather was a camp officer at Auschwitz. He used to tell us a funny story every once in awhile around dinner time.

He would tell us how he used to like to pick out 14-17 year old jewess whores and make them his concubines.

But of particular note was the way he selected his harum.

He would pick these girls out by putting his cigar out inside of their vagina or asshole after having sex.

The ones that screamed, were shot.

The ones that didn't scream, were spared and became his personal concubines until he tired of them.

He says he was having trouble getting the girls to cooperate at first, but when word got out that he liked to put his cigar out inside the vagina of his victims after sex, many of the camp jewess whores became "suddenly" expert at having a cigar put out inside of their vagina and assholes after sex, and laughing and enjoying it while he did it!

He said some even enjoyed it so much that they would leave his quarters with a broad and genuine smile on their faces and sucking on and smoking the very cigar he put out inside of their asshole or vagina after having sex with them not just a few minutes before while it was still wet.

He used to joke about the jewess whores smoking the "wet cigars" to his fellow officers.

So you see, the camps weren't as bad as they were made out to be.

The girls had fun.

This is a chance for the state governments to nut up and tell the EPA to go piss up a rope. In fact it's high time they told the federals to go F##K themselves, declare independence and form a more perfect union! I doubt any of them will since politicians as a rule are all cowards.

Obongo Conco, the foreign born unidentified minion of the ruling class just did get the EPA to declare carbon dioxide a dangerous pollutant. Now it is for them to exercise their dictatorial power over business and particularly power companies. Robbing them of any profit and forcing them to pass on the costs to, you know who.

Get ready for your power bills to double. Forget about that job you want, no potential employer will be able to hire anyone, probably will go out of business or lay off the few employees they still have.

In all my life I never thought stuff this stupid would come out of the so-called government.

I hope I live to see these criminals drug out of the halls of power by their feet and their hair and dealt with as traitors have always been dealt with. A disgraceful public execution, letting their bodies hang until they rot off of the ropes! Let their disgrace stand for all time! F##KING CRIMINALS! GOD DAMN THEM!

The EPA is backing Obama on this are they?

If they are...

It would be interesting to note if when Obama got elected, did he scrap and gut the entire GWB era EPA staff with his very own handpicked select minions?

If so, this would mean documented and undeniable proof that he had this planned all along, this extortion, and handpicked his EPA cabinet for the sole purpose to push it through.

This is a clear usurption of presidential powers and is cause for an immediate impeachment proceeding to begin.

Hey, maybe it's better if they do kill five and a half billion of us off because if we aren't smart enough to know that plant's need carbon dioxide to grow and emit oxygen from processing the carbon dioxide then we're probably too stupid to be here anyway. I find it hard to believe that so many Amerikan's don't know this first grade science lesson. Good job all you one worlder's, your plan is working well. You have succeeded in dumbing down the Amerikan population that even college students don't know basic first grade science lesson's. Seems you're getting the world that you want. I do so hope that you enjoy the warmth that your afterlife will provide in Hell. GOD save America!!
